

# 2024 Fall Class Descriptions

## Pre-K & Kindergarten

### 4- & 5-year-olds & Kindergarten

**Kara Foster \$150**

We will work on fine motor, gross motor, and social skills through play and themed learning. We will also develop early literacy and math skills. MAXIMUM 12

## 1<sup>st</sup>-2<sup>nd</sup> Grade

### Geography

**Ana Moseley \$40**

In this class, we will explore states and landmarks, capitals and national parks.

### Story Book Language Arts

**Rebecca Smith \$25**

The point of this course is to help students fall in love with reading! Each week we will read aloud a story and discuss literary elements. Students may also do an art project associated with the book, a science experiment, or even a recipe. We will be reading recommended books from Read Aloud Revival.

### Science 1

**Wendy Gannon \$40**

Science 1 starts with the most basic forms of life and moves step-by-step all the way to the inner workings of humans. By the end the student will have a solid grounding in biology for deeper scientific study. This is a full school year course. MAXIMUM 10

## 3<sup>rd</sup>-4<sup>th</sup> Grade

### Spanish

**Cynthia Lara \$40**

We will learn Spanish for daily life through songs, games, worksheets, and more! We introduce culture about Hispanic countries so the students are immersed not only in the language, but in the culture. They will develop listening, speaking, reading, and writing skills. MAXIMUM 13

### Science 2

**Wendy Gannon \$40**

Science 2 roots the students in the basics of the scientific method. Begins with microscope use then develops them into budding experts in everything from plants to primates to the life of the cell. Functions of the human body will be included. Objective is to provide the student with a comprehensive overview of the biological world. MAXIMUM 10

## **Math**

**Teresa King \$35**

Learning to appreciate and love the language of math by exploring the foundation of the “unknown” and learning how to “see” math through patterns and relationships. Working together as collaborative mathematicians and discovering different strategies to solve for the “unknown” using hands-on manipulatives (materials) and games as well as making real-life connections.

### **5<sup>th</sup>-6<sup>th</sup> Grade**

## **Growing Up Nourished**

**Jessica Darby \$40-\$50**

Comprehensive, holistic nutrition program from a whole diet approach with a spiritual component. MAXIMUM 12

## **IEW Level 1A (Writing)**

**Terese Hasty \$50 + Book**

IEW offers an incremental, formulaic approach to writing that has proven results. As a former tech writer and proposal writer, writing is what I know! I am so excited to teach this class and share my passion for writing with your child. If you pair this curriculum with grammar and spelling, you will be set for language arts. Parents will need to purchase “**IEW Structure and Style for Students: Year 1 Level A**” for their student. MAXIMUM 10

## **Spanish**

**Cynthia Lara \$40**

We will learn Spanish for daily life through songs, games, worksheets, and more! We introduce culture about Hispanic countries so the students are immersed not only in the language, but in the culture. They will develop listening, speaking, reading, and writing skills. MAXIMUM 13
